

PCL Friends Bookshelf

Online Booksale

PCL Friends Bookshelf link: <https://www.librarycat.org/lib/FPCL>

Thanks to our contacts with other Library Friends groups, we discovered an application that can be used to sell books online to local residents. From generous community donations, we have many books that are more valuable than our typical \$2 book sale pricing. We have beautiful coffee table books, best sellers, autographed copies, collectable items, vintage books, and first editions. These selected books have been loaded into our new **Friends Bookshelf** in an application called **Tiny Catalogue**; more are being entered periodically.

This is not an online store, but a bookshelf or mini-library that we have set up for sales. You do not purchase something directly in TinyCat but you **Request This Item** within a book's description and then pay for it at pickup.

It works like this:

- Enter any subject or select one of the categories below the search box
- Select a book and read the description; click on the book for a more detailed description
- Pricing information is listed on the Tiny Cat home page. We are unable to indicate prices with each item. Note that the price of a collectable item is its shelf number.
- Item pricing has been set at about 50% of what items are listed for sale online.
- If you want to purchase this book; select **Request This Item**
- A window pops up asking for your Name and Email; enter these two items and a comment if you want.
- If you want another book, repeat the process for each book; we will receive an email regarding the request
- We will reply (usually within 2 days) confirming your request. Once you receive a reply, the item will then be marked **CHECKED OUT** in TinyCat.
- Pick up days are the same as book donation days: 1st and 3rd Mondays 4-6pm. at the PCL Carriage House. If you have a book emergency or cannot come on a Monday, we can likely make special arrangements. We will not be shipping books.
- Payment must be made at pickup in exact cash or check.
